OUR FACILITIES

In Madrid is our business management, which has facilities of 500 m2 and includes a wide exhibition of products.

We have our own delegation to the south of the peninsula, based in Marbella.

ALH5

Our woodwork can be performed in different patterns forming families of doors and cabinets. The concept pattern is the one most subject to fashion, and therefore the most frequently varying. New options are emerging continuously.

TCH5

Since the first work GUILLEN gave a comprehensive solution to the carpentry chapter, covering both the inside and the outside carpentry designs.

GUILLEN, although it is and has been recognized as one of the manufacturers of doors and cupboards with more seniority and prestige in Spain, offers a wide range of products and services to provide a custom solution to each of the items of woodwork that constitute a building project.

We made about 3000 housing developments, among which are the most prestigious in Spain. In recent years, we have made "La Finca" and the rehabilitation of "Torre España" both in Madrid.
